FRONTEND DEVELOPER & SOFTWARE ENGINEERING STUDENT

MUHAMMAD UMAIR

WORK EXPERIENCE

HEAD OF MEDIA

April 2025 - Present

Confiniti Student Society, PAF-IAST

- Spearheaded comprehensive media initiatives to enhance student engagement and campus awareness. Developed and executed digital marketing strategies that increased society visibility by 40%. Coordinated cross-functional teams to deliver high-impact events and campaigns. Managed social media platforms and created compelling content to promote student activities and achievements.

PROJECT DEVELOPER

November 2024 - Present

Independent Web Development

- Designed and developed SecondShelf, a comprehensive book-sharing platform using JavaScript, HTML, and CSS. Implemented responsive design principles and user-centric features including book search, exchange functionality, and community-driven sharing mechanisms. Currently expanding the platform with advanced features and improved user experience.

EVENT ORGANIZER

December 2024 - January 2025

Community Service Projects

- Successfully organized three First Aid Awareness seminars in collaboration with Rescue 1122, including two school-based programs and one campus event. Coordinated logistics, managed stakeholder relationships, and ensured effective knowledge transfer to over 200 participants. Demonstrated strong project management and community engagement skills.
